

PRESS RELEASE - EXCLUSIVE DISTRIBUTION AGREEMENT BETWEEN TELEGRAFIK AND KINESIQ

- 6 February 2020
-

Telegrafik becomes the exclusive distributor of KINE-SIM on the French market.

Telegrafik and **Kinesiq** announce an exclusive agreement for the distribution of **KINE-SIM** on the French market by Telegrafik, an innovative balance and motor exercise device.

Telegrafik is a French company specialised in **Smart Care**, particularly known for its *connected solutions for seniors*. **KINESIQ** is a Canadian company specialising in *innovative physical and neurological rehabilitation equipment*.

The **KINÉ-SIM**, **KINESIQ**'s flagship product, will exclusively appear on the Telegrafik stand at the [Salon AGE3](#) to be held in **Paris, this Thursday, February 6th**. Visitors will be able to test it there!

Already approved across the Atlantic: the **KINE-SIM** has notably been adopted by the **leader in senior residences in the United States**, and is now available on the French market thanks to Telegrafik.

Present on three continents, **KINE-SIM** from KINESIQ is the best all-in-one exercise device for **rehabilitation** and **maintenance of functional autonomy**. It improves the **quality of life** and the physical condition of vulnerable people through a **playful** and therefore **motivating approach**. With its innovative technology, it is also the only device combining two motorised force plates that can move the user in synchronisation with a multitude of multimedia scenarios, working on **balance, motorskills, orthopaedics** and **cognitive abilities** all at the same time.

Do not hesitate to contact our team to discover **KINE-SIM!**
